FLEXIBLE PREMIUMS

The planned premium is flexible and may be changed by the insured once during the policy year, beginning in policy year two and thereafter. The insured may also make additional premium payments at any time. Premiums are payable to age 120. Missed or late premiums can affect the no-lapse guarantee.

Dial-A-Guarantee – The guaranteed coverage can be anywhere between a minimum required period of 20 years and a maximum of lifetime coverage to age 120.

CATCH UP OPTION

This allows the insured to catch up if the premiums are less than planned, paid late or skipped. These events cause the selected Guaranteed Death Benefit period to be reduced. To catch up to the originally selected guarantee period, the insured must pay more total premium provided the no-lapse guarantee is in effect.

No charge riders included in the base policy:

ACCELERATED DEATH BENEFIT FOR TERMINAL AND CHRONIC ILLNESS RIDER

(Form: 865Y-0207.)

The Accelerated Death Benefit Rider for Terminal Illness and Chronic Illness is a no cost rider available at issue on all policies. The maximum cumulative amount of death benefit that can be accelerated is \$250,000. After the acceleration, the death benefit of the policy must be equal to or greater than \$25,000. The acceleration can only be elected once for terminal illness. The acceleration can be elected multiple times for chronic illness. An actuarial factor will be applied to the amount requested. There is a \$100 charge for the enactment of this rider.

Terminal Illness: the rider provides a benefit of up to \$250,000 of the current death benefit if the insured provides evidence that their life expectancy is 12 months or less. The accelerated death benefit amount will be 94 percent of the amount you request. The remaining death benefit will remain in force and payable to the beneficiary at the time of the insured's death, adjusted for outstanding loans and any withdrawals. The minimum accelerated death benefit amount cannot be less than 30% of the Specified Amount.

Chronic Illness: the rider provides a benefit of up to \$250,000 of the current death benefit if the insured provides evidence that they are unable to perform 2 of the 6 ADLs and they have been confined to a qualified inpatient home for 90 days or more. The benefit will be paid out either as a lump sum or the amount will be deposited into an account and the client will have access to that account for as long as money is available. The remaining death benefit will remain in force and payable to the beneficiary at the time of the insured's death. The minimum accelerated death benefit amount cannot be less than 30% of the Specified Amount.

ADDITIONAL PRODUCT INFORMATION

It is possible coverage may not continue to the maturity date even if planned premiums are paid in a timely manner. This restriction will not apply when the no-lapse guarantee is in effect. If the policy does continue in force to the maturity date, it is possible that there will be little or no cash surrender value at that time. Policy values will be affected to the extent interest credits and cost of insurance charges are more favorable than guaranteed credits and charges.

POLICY EXCLUSION

The face amount will not be paid if the insured's death results from suicide within two years from the date of issue. Instead, we will pay the sum of premiums paid since issue.
